BOOKSTORE RENTAL – MICHELLE DONOHUE-MENDOZA

- $72,500 is a “floor amount” not the ceiling
- LEANN: Is there any added revenue from the book rental program?
- Food vendor and coffee cart revenue are negotiated at the time of contract signing
- GINNY: Students are making purchases at other venues; the Student Activities Office (SAO) and the Campus Center (CC) funding streams being tied to the operations of the bookstore/cafeteria make it difficult. Long range planning is needed.
- BECKY: Is there another funding source? Student engagement is important, the cut is devastating.
- ANGELICA: The Rental Program and SAO/CC funding being tied to the bookstore is structurally incompatible. How can we sustain half of what is offered?
- MARTA: What do the students think? There are many students who are facing financial hardships now, this number may increase.
- JEAN: Why is there custodial cost in the budget? No other program has custodians. Can the cost be moved to facilities? The budget change will take place next year.
- ELISE: All programs will be affected. A book rental program should be available to students, but not impact a program.
- Dr.HINDES: SAO/CC is the only program that has the ability to increase its revenue stream; “categorical programs” cannot generate revenue. It will be up to the students to decide on the book rental program.
