The mission of West Valley College Student Health Services is to strengthen student learning, retention and success by supporting the physical, emotional and social well-being of students.
Services for:
• Individuals & Groups
• Campus Events
• Class Presentations
• Community Service
• Resources On and Off Campus

Eligibility and Fees:
All currently registered students can be seen and treated by Health Services staff. Each registered student is charged a health fee as part of their enrollment fees. This fee covers most direct clinical services received as well as access to health education services, materials, events and screening programs throughout the year.
